PRESS RELEASE

Belize Investment Summit 2025 Hailed as a Resounding Success

Belmopan, September 8, 2025.

The highly anticipated Belize Investment Summit 2025 concluded on September 5, 2025, with unprecedented success, solidifying Belize's position as a premier destination for strategic and sustainable investment in the region. Held under the theme, "Bridging Markets, Building Resilience: The Nexus of CARICOM, Central America, and Mexico in the New Global Era," the summit attracted over 600 prominent international investors, business leaders, government officials, and local entrepreneurs.

The three-day event hosted at the Sunset Caribe in San Pedro, Ambergris Caye, served as a dynamic platform to showcase a curated portfolio of high-impact investment opportunities across Belize's key growth sectors. These included Sustainable Tourism & Hospitality, Agro-Processing, Renewable Energy, Digital Innovation & FinTech, Infrastructure, Logistics, Aviation, and the burgeoning Blue Economy, among other emerging sectors.

"The resounding success of this summit far exceeded our expectations," said Honorable John Briceño, Prime Minister of Belize. "We did not just talk about potential; we showcased tangible, bankable projects. The overwhelming response from the global investment community is a powerful testament to their confidence in Belize's political stability, economic reforms, and our unwavering commitment to sustainable and inclusive growth. This is not just an investment in projects; it is an investment in the future of our people."

The summit facilitated hundreds of one-on-one meetings between project proponents and investors, with a landmark Memorandum of Understanding (MOU) for the first-ever Sugar Refinery in Belize signed on-site and a presentation on the Master Plan for the Port of Belize Cruise and Cargo Project. Preliminary estimates indicate investment commitments exceeding BZ\$1.5 billion across various sectors, which are projected to generate significant employment opportunities for Belizeans.

Key highlights of the summit included:

- **In-Depth Sectoral Presentations:** Detailed breakdowns of investment opportunities, supported by robust data and clear regulatory frameworks.
- **Project Pitch Sessions:** Local entrepreneurs and project developers presented innovative and scalable business models to a global audience.
- **Policy Reform Dialogues:** Candid conversations between the public and private sectors addressing investor FAQs and outlining the government's agenda for improving the ease of doing business.
- **Focus on Sustainability:** Every discussion was underscored by the principle of responsible development that prioritizes environmental conservation and community benefits.

“The energy and professionalism at this summit were exceptional,” remarked an investor, CEO of an International Company. “Belize has uniquely positioned itself at the intersection of profitability and purpose. The clarity of vision presented by the government, combined with the sheer quality of the opportunities, makes Belize a compelling and serious player on the global investment stage. We are excited to move forward with our discussions.”

The Belize Investment Summit 2025 was organized by the Government of Belize through the Office of the Prime Minister, Belize Trade and Investment Development Service (BELTRAIDE), in partnership with the Inter-American Development Bank (IDB), other development partners, international financial institutions, and with great support from the private sector.

The Belize Investment Summit secretariat has announced that planning for the Belize Investment Summit 2027 is already underway, building on the tremendous momentum generated this year.
